COVERS OVER 2,100 OF THE MOST COMMONLY PRESCRIBED LAB TESTS

Lab work is the most
prescribed care by doctors.

One small, monthly fee... unlimited lab work.

Why Affordable Labs?

Affordable Labs is a low-cost fixed fee lab benefits program which provides unlimited access to the most common and necessary labs prescribed by doctors at **\$0 cost and no copay**.

70% of medical decisions are based on lab results.*

Lab testing can cost 3 to 5 times more than what you would pay an actual lab test facility.**

Employers can now give their employees the power to save by choosing where their labs are processed, with low or no cost!

** Based on internal Quest data

This is NOT insurance. This service does not provide money, fund, or any type of reimbursements to pay medical bills. This service is intended as "best-efforts services" and such, results cannot be guaranteed. Not all labs are eligible under the Affordable Labs Copay service. Provider collection and handling fees may apply and are subject to health benefit plan provisions.

Less Out-of-Pocket Costs

Affordable Labs will significantly help you reduce unnecessary outpatient lab spend and eliminate out-of-pocket costs for your employees.

High-Quality Lab Testing

Affordable Labs works in partnership with the world's leading provider of diagnostic information services. One in three Americans and half of all physicians and hospitals in the United States trust us for accurate test results.

Easy to Implement, Easy to Use

Employees keep their doctors and get supported member engagement and education.
